AREA VII — LIBRARY

	RECOMMENDATIONS	ACTION/S TAKEN	SUPPORTING DOCUMENT/S	LINK TO THE SUPPORTING DOCUMENT/S	REMARKS
1	There is a need to hire additional professional staff to meet the required number of librarians based on the number of students and faculty members as given in the AACCUP standards.	(1) The BU HRMDO has published and filled-up several librarian positions since 2019. Furthermore, an ongoing hiring process is underway to fill the remaining four (4) vacant librarian positions, which became available due to promotion and retirement in order to meet the required number of professional librarians as mandated by CMO No. 22, series of 2021. (2) Submitted a comprehensive Five-year Staffing Plan to ensure adequate staffing levels to meet the growing needs of the institution and its stakeholders.	(1) Data/matrix of filled/unfilled positions from 2020 to 2024 (2) Publication of vacancies (3) List of applicants for the vacant librarian positions (2020-2024) (4) Deliberation for the remaining vacant librarian positions (5) Comprehensive 5-year Staffing Plan	Link to the Supporting Documents for Recommendation # 1	
2	The University Administrators may consider the possibility of "scrap and build" in order to make the plantilla position for Librarian I be converted to College Librarian I. Likewise, the University may consider, if feasible, the creation of a College Librarian IV position for the University Librarian, and additional College Librarian I, II, and III positions for librarians with relevant qualifications.	(1) “Scrap and Build” is not possible pending the release of the NBC 589-Revised Organization and Staffing Standards (ROSS) for SUCs-Phase 3. The mentioned positions were already included in the proposed ROSS phase 3.	(1) Response from the HRMDO	Link to the Supporting Documents for Recommendation # 2	
3	It is recommended to acquire more relevant and current reference titles which support the general education and professional subjects based on the curriculum requirements of the programs. Moreover, it is suggested to strengthen the reference collection of the other Unit Libraries particularly those that are outside the Main Campus, including the College of Health Sciences which is newly established.	(1) The Library System has prepared a comprehensive collection analysis for every program. This report includes a tabular representation of the trend in acquisitions by discipline and by unit libraries, providing a detailed overview of the collection's growth and development over the past three years.	(1) Annual book acquisition of the University Library and ebook acquisition of the University Library System for 2019-2023 (2) Annual book acquisition of unit libraries for 2019-2023 (3) Collection Analysis per program by subject of the BU Library System for 2024 (4) Summary of Book Acquisitions of the University Library System (2019-2023)	Link to the Supporting Documents for Recommendation # 3	
4	The University may consider keeping the Unit Libraries in the East and Daraga Campus in order for them to be of close proximity to the students who are studying in these External Campuses.	(1) The East Campus Library and Daraga Campus library, were temporarily relocated to alternative facilities while waiting for the construction of new buildings. The East Campus Library is currently housed in the Old Electrical Laboratory building in the East Campus, awaiting the completion of a three-story building project within the BU East Campus. The Daraga Campus library has been set up temporarily at the International House (BU Daraga Campus) with a designated librarian. However, the library is not yet fully operational due to lack of power supply in the said building. Construction is expected to commence in a few months of a 10-story Accounting building, which will eventually include the Daraga Campus Library on one of its floors. Both construction projects are being funded by the Department of Public Works and Highways (DPWH) under the General Appropriations Act (GAA) for fiscal year 2024.	(1) East Campus Library blueprint (2) Photos of current East Campus Library; (3) Designation of librarians at East Campus Library (4) Approved GAA for FY 2024 (Construction of 10-storey Accountancy building) (5) Letter from the Office of the President regarding the provision for a library within the Accountancy building (6) Photos of the temporary Daraga Campus Library at the BU International House, BU Daraga Campus. (7) Designation of librarian for Daraga Campus Library	Link to the Supporting Documents for Recommendation # 4	
5	The BU Librarians may consider the shift from Dewey Decimal Classification System to Library of Congress Classification Scheme which is more appropriate for a research library with growing collection as that of Bicol University Library.	The Library System has carefully considered the recommendation to shift to the Library of Congress Classification System. With the approved proposal, the ULS will commence the transition by 2025. The project was supposed to start in 2020 but was delayed due to the pandemic and adjustment to the new normal practices in the succeeding years.	(1) Approved Proposal for Conversion to Library of Congress (2025-2027)	Link to the Supporting Documents for Recommendation # 5	
6	The University Library needs to be solely used to house the print and non- print collection, and for information and research activities congruent to the Library's goals and objectives in support to the University's vision and mission and the Colleges' objectives. As such, no other offices not related to library service be housed in the University Library.	(1) The Office of the Commission on Audit (COA) will be transferred to a permanent office building. The vacant space will be transformed into an International Reading and Network Center, a new global hub for literary activities, connections, and exchange in the University providing a shared space for readers, writers, and scholars to come together and collaborate. (2) The BU Open University (BUOU) will be transferred to the 10-story ICT building in the Main Campus, where it will be transformed into a state-of- the art Library Learning Commons. This new space will offer a dynamic and collaborative environment for students, faculty, and staff to engage in learning, research and innovation.	(1) Letter from the Office of the President re: plans for spaces occupied by the BUOU andCOA (2) Plan/design for the Learning Commons for the space to be vacated by BUOU	Link to the Supporting Documents for Recommendation # 6
